

IN THE UNITED STATES DISTRICT COURT  
FOR THE EASTERN DISTRICT OF NEW YORK

UNITED STATES OF AMERICA,

Plaintiff,

vs.

KEITH RANIERE,

Defendant.

NO. 1:18-CR-00204(S-2)-001(NGG)

**DECLARATION OF MARK H. ALLENBAUGH,  
CHIEF RESEARCH OFFICER & CO-FOUNDER, SentencingStats.com, Inc.**

**EXECUTIVE SUMMARY**

- From fiscal year 2006 through and including 2023, exclusive of those receiving a downward departure pursuant to USSG §5K1.1, there were 207 inmates nationwide with Mr. Ranieri's same Guidelines calculation—2G2.1, Total Offense Level (TOL) of 43, Criminal History Category (CHC) I—who were also subject to a statutory maximum term of life imprisonment.
- The average sentence was only 390 months.
- Mr. Ranieri's greater-than-life sentence of 1,440 months was the second highest.
- Mr. Ranieri's \$1.75 million fine was the highest by far.
- In FY 2023, the average sentence for murder in CHC VI was just 333 months.
- Mr. Ranieri's sentence is higher than anyone sentenced under 2A3.1 (Criminal Sexual Abuse), 2G1.1 (Prohibited Sexual Contact), 2G1.3 (Prohibited Sexual Contact with a Minor), and 2G2.2 (Trafficking in Material Involving the Sexual Exploitation of a Minor) sharing his same Guidelines calculation who were also subject to a statutory maximum term of life imprisonment. Only one sentence was higher under 2A1.1 (Murder).
- As a result of Mr. Ranieri's lengthy imprisonment, which significantly reduces life expectancy, he is not expected to survive past 2027.

## INTRODUCTION

I, Mark H. Allenbaugh, having personal knowledge of the matters set forth below, do declare as follows under penalty of perjury pursuant to 28 U.S.C. § 1746:

1. I am the Chief Research Officer and Co-Founder of SentencingStats.com, Inc. (“SSINC”), a data analytics and research firm that provides statistical analyses of U.S. Sentencing Commission sentencing, Bureau of Prisons and Bureau of Justice Statistics data and other pertinent data sources to legal professionals across the country. I am a former staff attorney in the Office of General Counsel to the U.S. Sentencing Commission, where I was trained on the use and interpretation of the Commission’s datafiles. I hold a B.A. from the University of Southern California, an M.A. from Ohio University, and a J.D. from American University’s Washington College of Law where I was an editor for the Law Review. I have also performed coursework toward a Ph.D. in the Philosophy of Science at the University of Maryland, College Park. My biography is attached hereto.

2. SSINC was retained by defense counsel regarding the matter of *United States v. Ranieri*, 1:18-CR-00204 (E.D.N.Y.), to analyze the U.S. Sentencing Commission’s publicly available datafiles<sup>1</sup> for similarly situated defendants matching various sentencing scenarios identified further below. SSINC also reviewed pertinent filings and documents in the case.

3. SSINC utilized the SPSS version of the Commission’s datafiles, which contain sentencing data on over one million individuals sentenced under the U.S. Sentencing Guidelines from fiscal years 2006 through and including 2023, the latest datafile currently available.

4. Each individual sentence reported in the datafiles is assigned hundreds of variables reporting a variety of relevant information including the actual sentence imposed, the final applicable sentencing guideline as determined by the court, the final (i.e., total) offense level, the

---

<sup>1</sup> The Commission’s public datafiles are available at <https://www.ussc.gov/research/datafiles/commission-datafiles>. SSINC currently has access to the Commission’s datafiles from fiscal year 2002 through and including fiscal year 2023. Courts may independently run very limited statistical analyses of the same data, but only back to FY 2019. See U.S. Sentencing Comm’n, *Judiciary Sentencing Information*, at <https://www.ussc.gov/guidelines/judiciary-sentencing-information>.

criminal history category, the number of criminal history points, the offense(s) of conviction, any mandatory minimum or consecutive penalty, the statutory maximum penalty, and whether the sentence was the result of a government motion for a departure or a court-initiated downward variance, among many other factors including demographic factors regarding the defendant.

5. All the variables reported in the datafiles are defined in the U.S. Sentencing Commission's Variable Codebook for Individual Offenders (1999-2023) (revised Apr. 25, 2024).<sup>2</sup> An extract of the raw datafiles SSINC used for the analyses below is attached hereto subsequent to my biography.

#### **STATISTICAL ANALYSES OF FEDERAL SENTENCING DATA**

6. According to the Commission's datafiles, Mr. Ranieri's sentence is assigned the unique serial number ("USSCIDN") 2644008 and is contained within the datafile for FY 2021. The Commission recorded the values most pertinent to his sentencing in the following variables:

Variable	Description	Value (Meaning)
GDLNEHI	Operative Guideline	2G2.1
XFOLSOR	Total Offense Level	43
XCRHISSR	Criminal History Category	1 (for "I")
STATMIN	Statutory Minimum Term in months	180
STATMAX	Statutory Maximum Term in months	9996 (life)
GLMIN	Minimum of advisory sentencing range in months	470 (life)
GLMAX	Maximum of advisory sentencing range in months	9996 (life)
FINE	Value of fine imposed in dollars	1750000
BOOKERCD <sup>3</sup>	Reason for departure or variance, if any; 5 = 5K1.1	0

<sup>2</sup> The Codebook is available at [https://www.ussc.gov/sites/default/files/pdf/research-and-publications/datafiles/USSC\\_Public\\_Release\\_Codebook\\_FY99\\_FY23.pdf](https://www.ussc.gov/sites/default/files/pdf/research-and-publications/datafiles/USSC_Public_Release_Codebook_FY99_FY23.pdf).

<sup>3</sup> Beginning in FY 2018, the Commission discontinued BOOKERCD and replaced it with SENTRYGE. In order to consistently evaluate datafiles after 2018 with prior fiscal years, SSINC has opted to translate SENTRYGE

1	SENSPLT0 <sup>4</sup>	Sentence of imprisonment imposed in months	1440
---	-----------------------	--	------

2  
3           7.       From fiscal years 2006 through and including 2023, i.e., the entire post-*Booker* era,  
4 SSINC identified 207 cases matching Mr. Raniere’s Guidelines calculation as recorded by the  
5 Commission and otherwise calculated in his PSR.

6           8.       The average sentence was 390 months, the median 360 months, the minimum was  
7 120 months and the maximum was 1,920 months.

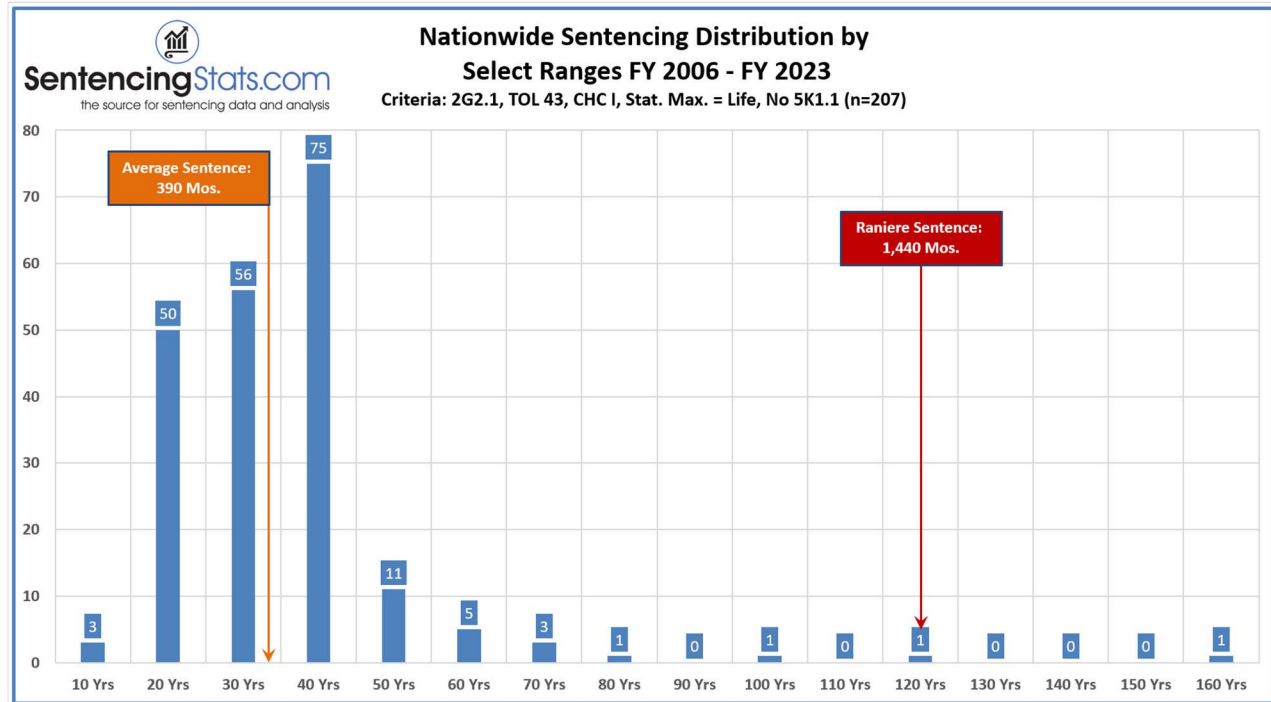

8           9.       The Commission codes life sentences as 470 months as it believes that is the typical  
9 time a lifer will serve.<sup>5</sup> Mr. Raniere’s greater-than-life 1,440-month sentence was the second  
10 highest.

11           10.      Below is a histogram illustrating the distribution of these 207 sentences by select  
12 ranges. As indicated by the left-most column, three sentences were for 10 years or less. The column  
13 immediately to the right indicates that 50 sentences were for greater than 10 years but no greater  
14 than 20. A plurality fell between 30 and 40 years. The orange box and arrow indicate the average  
15 sentence and the red, Mr. Raniere’s sentence.

16  
17  
18  
19  
20  
21  
22 values into BOOKERCD values. While some minor fidelity is lost in doing so, it has no material effect on the  
23 analyses herein.

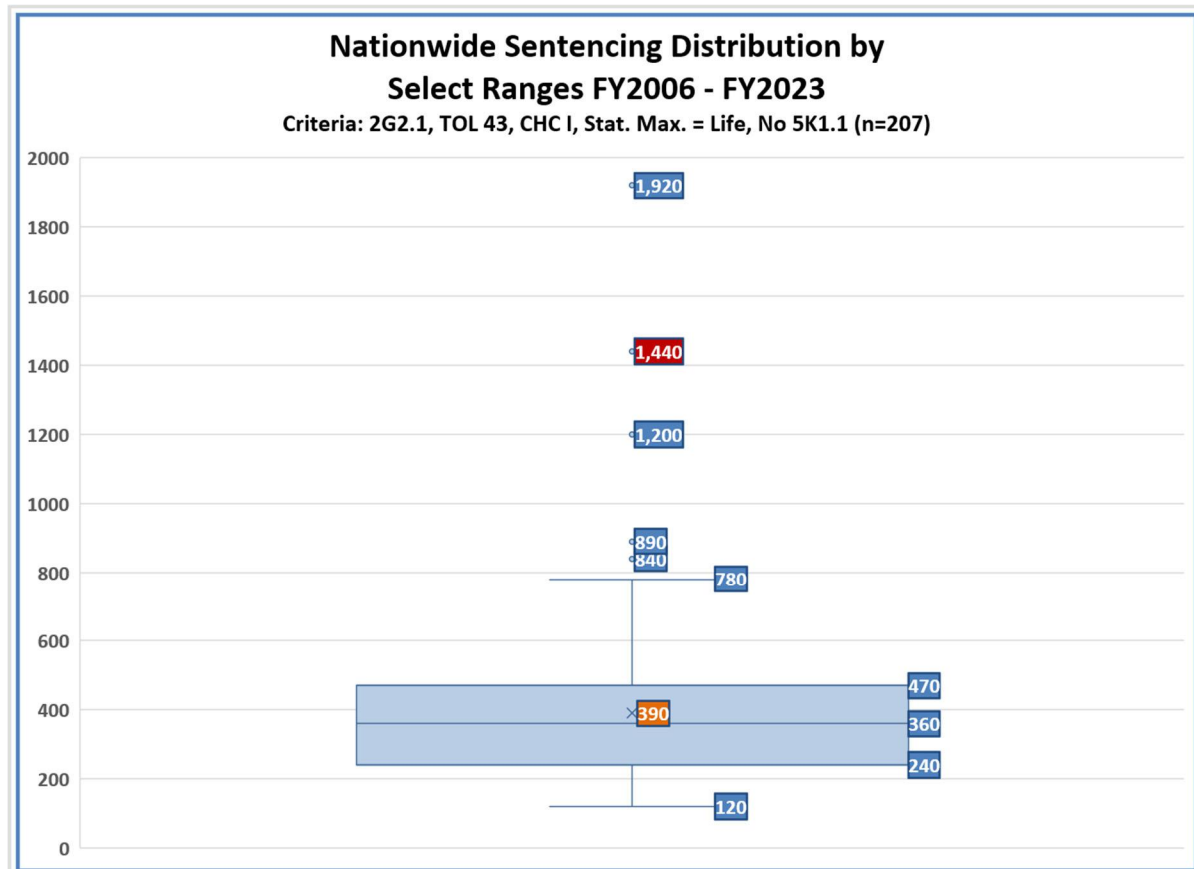

24           <sup>4</sup> SENSPLT0 includes sentences imposing alternatives to prison such as home, community and intermittent  
25 confinement. Such alternative sentences have no material effect on the analyses herein. The value represents the  
26 actual sentence imposed. Sentences of “Life” and those greater than 470 are elsewhere truncated to just 470 months.

27           <sup>5</sup> See U.S. Sentencing Comm’n, *Judiciary Sentencing Information*, “Ask JSIN: How is average and median  
28 sentence length determined in the results?,” (“In cases where the court imposes a sentence of life imprisonment,  
sentences are reported as 470 months, a length consistent with the average life expectancy of federal criminal  
defendants given the average age of federal defendants. Sentences of greater than 470 months are also reported as  
470 months.”), <https://jsin.ussc.gov/analytics/saw.dll?Dashboard#USSCAskJSINCustomPopupOpen>

11. Another common way to visualize the distribution of data is the boxplot, which the Commission itself utilizes.<sup>6</sup> The boxplot below illustrates the distribution of the exact same data. The orange highlighted number adjacent to the 'x' within the blue box indicates the average sentence (390 months) while the blue line bisecting the blue box indicates the median sentence (360 months). The top of the box indicates the Third Quartile (75<sup>th</sup> percentile) of 470 months, which is how the Commission codes life sentences. The bottom of the box indicates the First Quartile (25<sup>th</sup> percentile) of 240 months. Thus, half of the 207 sentences fell between 240 and 470 months (life). The "T"s extending above and below the box indicate the upper (780 months) and lower bounds (120 months). Sentences above or below these boundaries are considered statistical anomalies or outliers. The red box is Mr. Ranieri's sentence, close to twice the upper bound.

<sup>6</sup> See U.S. Sentencing Comm'n, *INTER-DISTRICT DIFFERENCES IN FEDERAL SENTENCING PRACTICES Sentencing Practices Across Districts from 2005 – 2017* 10 (Jan. 2020), [https://www.ussc.gov/sites/default/files/pdf/research-and-publications/research-publications/2020/20200122\\_Inter-District-Report.pdf](https://www.ussc.gov/sites/default/files/pdf/research-and-publications/research-publications/2020/20200122_Inter-District-Report.pdf).

12. In fact, Mr. Raniere’s sentence is over five standard deviations away from the average sentence of 390 months.<sup>7</sup> Any value over three standard deviations is considered highly unusual;<sup>8</sup> five is exceedingly rare.<sup>9</sup> Thus, statistically speaking, Mr. Raniere’s sentence suffers from disparity in the extreme.

13. Of these 207 sentences, 16 were within the Second Circuit. Mr. Raniere’s 120-year sentence was the only one imposed that was greater than life, i.e., more than 470 months.<sup>10</sup>

<sup>7</sup> “The measure of the predicted fluctuations from the expected value is the standard deviation.” *Castaneda v. Partida*, 430 U.S. 482, 496 n.17 (1977).

<sup>8</sup> *See id.*

<sup>9</sup> “[F]ive standard deviations corresponds to a probability range of . . . 1 chance in 1,742,160.” *EEOC v. Mavis Disc. Tire, Inc.*, 129 F. Supp. 3d 90, 110 n.14 (S.D.N.Y. 2015).

<sup>10</sup> To be sure, in *United States v. Broxmeyer*, No. 3:08cr21 (N.D.N.Y.), the defendant was originally sentenced on April 7, 2009, to 480 months. On remand, the defendant’s sentence was lowered to 360 months.

1           14. Using the identical Guidelines calculations as Mr. Raniere's, SSINC expanded its  
2 evaluation of sentences to include those sentenced under similar or more serious Guidelines, to  
3 wit, SSINC cumulatively analyzed cases matching the selection criteria under the following  
4 Guidelines: 2A1.1 (First Degree Murder), 2A3.1 (Criminal Sexual Abuse), 2G1.1 (Prohibited  
5 Sexual Contact), 2G1.3 (Prohibited Sexual Contact with a Minor), 2G2.1 (Sexually Exploiting a  
6 Minor by Production of Sexually Explicit Visual or Printed Material), and 2G2.2 (Trafficking in  
7 Material Involving the Sexual Exploitation of a Minor).

8           15. SSINC identified a cumulative total of 865 sentencings matching the selection  
9 criteria. The average sentence was 410 months and the median was 470 months (life).

10           16. Mr. Raniere's 1,440-month sentence was the third highest overall behind the  
11 previously identified 1,920-month sentence also under 2G2.1, and a 1,680-month sentence under  
12 2A1.1 (First Degree Murder).

13           17. This time, however, Mr. Raniere's sentence was over 6.5 standard deviations away  
14 from the average.

15           18. Below is a table from the Commission's *2023 Sourcebook of Federal Sentencing*  
16 *Statistics*. As shown, the average sentence for sexual abuse in CHC I is only 207 months. Mr.  
17 Raniere's sentence is nearly seven times greater than that. Indeed, the average sentence for murder  
18 in CHC VI—the highest criminal history category indicating significant recidivism—is only 333  
19 months. Mr. Raniere's sentence is over four times greater than what a recidivist murderer would  
20 typically receive.

Table 27

SENTENCE LENGTH IN EACH CRIMINAL HISTORY CATEGORY BY TYPE OF CRIME<sup>1</sup>

<sup>1</sup> Of the 64,124 cases, 420 cases were excluded due to one of the following reasons: missing Criminal History Category (419) or missing or indeterminable sentencing information (1). Sentences of 470 months or greater (including life) and probation were included in the sentence average computations as 470 months and zero months, respectively. The information in this table includes conditions of confinement as described in USSG §5C1.1. Descriptions of variables used in this table are provided in Appendix A.

## LIFE EXPECTANCY

19. According to an oft-cited, published, peer-reviewed study by Dr. Evelyn J. Patterson,<sup>11</sup> there is, on average, “a 2-year decline in life expectancy for each year served in

<sup>11</sup> See Evelyn J. Patterson, *The Dose Response of Time Served in Prison on Mortality: New York State, 1989-2003*, 103 Am. J. Pub. Health 523 (2013), available online, <https://ajph.aphapublications.org/doi/abs/10.2105/AJPH.2012.301148> (cited in support in *United States v. Jenkins*, 854 F.3d 181, 186 n.2 (2d Cir. 2017); *State v. Haag*, 198 Wn.2d 309, 329, 495 P.3d 241, 251 (Wash. 2021); *People v. Contrearras*, 4 Cal. 5th 349,362-63 (Cal. 2018); *People v. Wines*, 323 Mich. App. 343, 351 n.6 (Mich. 2018); *People v. Sanders*, 2016 IL App (1st) 121732-B, ¶ 26, 404 Ill. Dec. 579, 56 N.E.3d 563)).

prison.”<sup>12</sup> Dr. Patterson’s findings are consistent with findings by the U.S. Department of Justice itself,<sup>13</sup> as well as healthcare professionals.<sup>14</sup>

20. Mr. Raniere was 57.6 years old when he was first detained on March 26, 2018 and has remained in custody since that time. He is now 64.3 years old. According to the Social Security Administration, he is expected to live to 84.1 years of age.<sup>15</sup> Of course, this does not take into consideration the additional adverse effects of long-term incarceration. The chart below therefore applies Dr. Patterson’s finding that two years of life expectancy are lost for every year of imprisonment. As indicated by the lines intersecting age (orange) and life expectancy (blue) lines, Mr. Raniere is not expected to survive beyond 2027.

## ALLENBAUGH BIOGRAPHY

Mark H. Allenbaugh, a sentencing and mitigation consultant, is a nationally recognized expert on federal sentencing matters. He is a co-founder of SentencingStats.com, Inc., which provides attorneys and their clients with expert statistical analyses of data and trends reported by the U.S. Sentencing Commission, the Bureau of Prisons, the Bureau of Justice Statistics and other entities. Sentencing Stats, LLC has access to the U.S. Sentencing Commission's sentencing datafiles from 2002 to the present. These datafiles contain thousands of variables for every defendant sentenced under the U.S. Sentencing Guidelines nationwide, which report pertinent information regarding the offender and the sentence imposed. These data allow him to provide precise statistical and trend analyses for clients and counsel.

Mr. Allenbaugh holds three B.A.s from the University of Southern California in Philosophy, English, and Religion; an M.A. in Philosophy from Ohio University; and a J.D. from American University's Washington College of Law, where he served as an editor on the Law Review. Mr. Allenbaugh also has completed coursework toward a Ph.D. in the History and Philosophy of Science at the University of Maryland, College Park.

Prior to entering the private sector, Mr. Allenbaugh served as a Staff Attorney for the U.S. Sentencing Commission. He has published numerous articles on sentencing policy and criminal justice, which have been cited over 100 times in top U.S. law reviews and journals, and over a dozen times in published federal district and appellate court opinions. *See, e.g., United States v. Musgrave*, 647 Fed. Appx. 529, 538 (6th Cir. 2016) (quoting Mark H. Allenbaugh, "Drawn from Nowhere": A Review of the U.S. Sentencing Commission's White-Collar Sentencing Guidelines and Loss Data, 26 Fed. Sent'g Rep. 19, 19 (2013)); *United States v. Spencer*, 700 F.3d 317, 327 (8th Cir. 2012) (Bright, J., dissenting) (quoting Alan Ellis, John R. Steer & Mark H. Allenbaugh, *At a "Loss" for Justice*, 25 Crim. Just. 34, 35 (2011)); *United States v. Garthus*, 652 F.3d 715, 718 (7th Cir. 2011) (quoting Paul J. Hofer & Mark H. Allenbaugh, "The Reason behind the Rules: Finding and Using the Philosophy of the Federal Sentencing Guidelines," 40 Am. Crim. L. Rev. 19, 26-36 (2003)).

Mr. Allenbaughs is quoted frequently in the press such as by the Washington Post, Wall Street Journal, New York Times, Chicago Tribune and others. Below is a sample of his publications.
